

Waste Facility Permit

Issued by:

Wicklow County Council

Waste Management Act 1996
and
Waste Management (Facility Permit and Registration) Regulations 2007

Waste Facility Permit No: **WFP-WW-09-0014-07**

Applicant: **Multimetals Recycling Ltd**

Facility location: **Bollarney, The Murrough, Wicklow**

Date of issue: **14 April 2025**

Expiry date: **13 April 2030**

Signed: **M. Quinn**

Date: **14/04/2025**

Note 1: The granting of this Waste Facility Permit, and any condition imposed by it, does not exempt the holder of the Waste Facility Permit from complying with the statutory obligations of any relevant legislation, including water pollution, air pollution, waste, litter and planning legislation or legal liabilities under any other enactment or regulations whatsoever. The permit holder is legally responsible for all aspects of the operation and management of the Permitted activity.

Note 2: Should the permit holder wish to continue to operate after the date of expiry, an application to review the facility permit shall be made to Wicklow County council in accordance with Article 31 (1) of the Regulations no later than 60 working days before the date of the expiry of this Waste Facility Permit.

Note 3: Should the permit holder not wish to continue waste activities at any time or after the date of expiry of this Waste Facility Permit, the holder shall by notice in writing to Wicklow County council, surrender the permit in accordance with Article 29 of the Regulations.

Subject to the attached schedule of conditions.

This Waste Facility Permit **WFP-WW-09-0014-07** and attached conditions, may at any time be reviewed, and subsequently amended should Wicklow County Council consider it necessary.

Signed: M. Quinn

**Senior Executive Officer,
Planning, Development and Environment.**

Date: 14th April 2025

Part 1 Activities Waste facility permit

In pursuance of the powers conferred on it by the Waste Management Act 1996 and the Waste Management (Facility Waste facility permit and Registration) Regulations S.I No.821 of 2007 as amended by the Waste Management (Facility Waste facility permit and Registration) (Amendment) Regulations S.I No.86 of 2008, Wicklow County Council under Article 37 of the Regulations hereby grants this Waste Facility Permit to **Multimetals Recycling Ltd, Bollarney, The Murrough, Arklow.**

multimetals
recycling ltd.

Class of Activity in accordance with the Third Schedule, Part I of the Waste Management (Facility Permit and Registration) Regulations 2007, as amended.

Class	Definition
4	"The reception storage and recovery of scrap metal, including scrap metal arising from the end-of-life vehicles, waste vehicles, waste vehicles (other than end of life vehicles) and WEEE where scrap metal from- (1) End of life vehicles shall be subject to appropriate treatment and recovery in accordance with the provisions of the European Union (End-of-Life Vehicles) Regulations 2014 (S.I. No.281 of 2014) prior to acceptance at the scrap metal facility, and as appropriate, (2) Waste vehicles (other than end of life vehicles) shall be subject to the appropriate treatment and recovery having regard to the provisions of the European Union (End-of-Life Vehicles) Regulations 2014 (S.I. No.281 of 2014) prior to acceptance at the scrap metal facility, and as appropriate, (3) WEEE shall be subject to appropriate treatment and recovery in accordance with the provisions S.I. No.149 of 2014 –EU WEEE Regulations 2014 prior to acceptance at the facility.
12	The collection and storage (including temporary storage) and the appropriate treatment and recovery of end-of-life-vehicles in accordance with the provisions of the European Union (End of Life Vehicles) Regulations 2014 (S.I. No.281 of 2014)

Where the principle class of Activity is Class 4

Permitted Recovery Activity in accordance with the Fourth Schedule, Part 1 of the Waste Management Act 1996 as amended

Class	Definition
R4	"Recycling/reclamation of metals and metal compounds"
R5	"Recycling/reclamation of other inorganic materials, which includes soil cleaning resulting in recovery of the soil and recycling of inorganic construction materials"
R13	Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced)".

Interpretation

All terms in this Waste facility permit should be interpreted in accordance with the definitions in the Waste Management Act 1996 (the Act) and its associated regulations.

CONDITION 1 – SCOPE

- 1.1 The Waste Facility Permit is for the purpose of waste activity authorisation under the Waste Management (Facility Permit & Registration) Regulations S.I. No. 821 of 2007 as amended by the Waste Management (Facility Permit and Registration) (Amendment) Regulations S.I. No. 86 of 2008 only, and nothing in this Waste facility permit shall be construed as negating the Waste facility permit holder's statutory obligations or requirements under any other enactments or regulations.
- 1.2 The Waste Facility Permit is granted to **Multimetals Recycling Ltd** for the waste activities in accordance with the Third Schedule, Part I of the Waste Management (Facility Permit and Registrations) Regulations 2007, as amended by the Waste Management (Facility Permit and Registration) (Amendment) Regulations S.I. No. 86 of 2008.
- 1.3 Wicklow County Council may alter the conditions of this Waste Facility Permit where warranted at any stage during its lifespan.
- 1.4 The Waste Facility Permit is granted for **5 years**.
- 1.5 The maximum allowable annual waste acceptance for all materials shall not exceed **30,000 tonnes**.
- 1.6 Only wastes listed in **Appendix A** of this Permit shall be accepted at this facility.
- 1.7 The facility permit holder shall adhere to the operational guidelines as prepared by the Department of the Environment Community and Local Government regarding the issuance of Certificates of Destruction.
- 1.8 For the purposes of this Waste Facility Permit, the permitted area is to be confined to that outlined in red on the drawings submitted in the application. No waste activities pertaining to this permit shall take place outside the de-lineated area.
- 1.9 The storage of metal on site shall be such that spill over of waste shall not occur onto lands outside the permitted area.
- 1.10 The Waste Facility Permitt holder shall ensure that the site is managed, operated and maintained in compliance with the conditions of the Waste Facility Permit.

- 1.11 Any non-conformance with the conditions of this Waste Facility Permit is an offence under Article 43 of the Waste Management (Facility Permit and Registration) Regulations 2007 as amended by the Waste Management (Facility Permit and Registration) (Amendment) Regulations S.I. No. 86 of 2008 and Section 39(9) of the Waste Management Act 1996 for which you may be prosecuted.
- 1.12 Where Wicklow County Council considers that non-compliance with the conditions of this Waste Facility Permit has occurred, it may serve Notice on the Waste Facility Permit Holder to address the non-compliance.
- 1.13 The permit holder shall notify Wicklow County Council in writing of any proposed changes to the information furnished in the application process or any proposed changes to the activity, and shall obtain written approval from Wicklow County Council prior to these changes taking effect. Should the the submission identify a material or significant change in
- A. The nature, extent or focus of the waste activities;
 - B. The nature or extent of any emission;
- a facility permit review application including the relevant fee may be required before the proposed change can be assessed.

REASON - To clarify the scope of this WASTE FACILITY PERMIT

CONDITION 2 – MANAGEMENT OF THE ACTIVITY

- 2.1 The facility shall be adequately manned and supervised at all operating times. It shall be maintained to the satisfaction of Wicklow County Council, and adequate precautions shall be taken to prevent unauthorised access to the facility.
- 2.2 No activities relating to this Waste Facility Permit shall take place outside of the following hours. **7am to 5pm (Monday - Friday) and 7am to 1 pm on Saturday**. No work (excluding emergency works) shall take place at the facility outside of these hours, unless otherwise approved in writing by Wicklow County Council.
- 2.3 All trucks delivering to the site must have a **valid Waste Collection Permit**; it is the responsibility of the Waste Facility Permit holder to ensure that this condition is adhered to.
- 2.4 The Waste Facility Permit holder is legally responsible for all aspects of the operation including Health & Safety issues and maintenance of the site.
- 2.5 **The maximum height of any stockpile within the permitted area shall be 9m at any time. The Permit Holder shall erect 5 No 9m high Gauge Poles around the perimeter of the site to enable the actual height of any stockpile to be measured visually without the need for a formal survey.**
- 2.6 Where Wicklow County Council observes that non-compliance with the conditions of this Waste Facility Permit has occurred, it may serve Notice on the Waste Facility Permit Holder to address the non-compliance or it may temporarily close the facility pending compliance with the conditions.
- 2.7 A suitably qualified and experienced facility manager who shall be designated as the person in charge. The facility manager or a nominated, suitably qualified and experienced deputy shall be present at the facility at all times during its operation or as otherwise required by Wicklow County Council.
- 2.8 A copy of this permit shall be maintained on site at all times. All staff working on the site shall be familiar with the conditions attached to this permit.
- 2.9 The permit holder should ensure that authorised staff of Wicklow County Council shall have unrestricted access to the facility at all reasonable times on the production of their identification, for the purposes of Wicklow County Council's functions under the Waste Management Act, 1996,

including such inspections, monitoring and investigations as deemed necessary by Wicklow County Council.

REASON - To make provision for the proper management of the facility

CONDITION 3 – NOTIFICATION MANAGEMENT OF THE ACTIVITY

- 3.1 Information regarding incoming waste shall contain the following in relation to End of Life Vehicles:
- Name of Haulier
 - Date & Time
 - Collection Address
 - Weight
- 3.2 Information regarding incoming waste shall contain the following in relation to all other incoming waste:
- Name of Haulier
 - Source of Waste
 - Waste Description (including EWC Code)
 - Weight
- 3.3 The Weight assigned to each End of Life vehicle arriving at the facility shall be **1.4 tonnes**.
- 3.4 All outgoing waste must be recorded via the facility weighbridge. Information to be contained for these loads must include:
- Name of Haulier
 - Waste Type
 - Destination
 - Weight
- 3.5 Where E.L.V.'s or scrap metal are delivered to the facility by a third party, details of specified proof of identity and current address of person supplying the wastes must be requested and stored.
- 3.6 The permit holder shall not compile information which is false or misleading.
- 3.7 The Waste Facility Permit holder shall maintain a register of complaints received from members of the public.
- 3.8 In the case where all works at the facility are completed and the Waste Facility Permit has expired these records shall be kept at the principal

place of business of the Waste Facility Permit holder for a period of 7 years.

3.9 Information regarding Certificates of Destruction (C.O.D.) must include:

- Totals by Make/Model
- Totals by Class (i.e. category M1 or N1)
- Unique C.O.D. number
- Date of issue of C.O.D.
- Registration & Chasis Number of the ELV.

3.10 The permit holder shall submit to Offaly County Council as the National Waste Collection Permit Office (NWCPO) an **Annual Report (AR)** before the end 28th February each year. The completed AR must be submitted online (<https://ar.nwcpo.ie/>) and provide all the information that is required to satisfactorily complete the AR. Failure to submit the AR by the 28th February each year will result in the temporary closure of the facility pending the submission of the AR.

3.11 The on-line Annual Report, shall include as a minimum the following information and shall be prepared in accordance with any relevant guidelines issued by the NWCPO or Wicklow County Council , the following information;

(a) For each supplier/waste collector who delivered waste to the facility, in the preceding calendar year, the following summary details are required:

- (i) Waste Collection Permit Holder Details;
- (ii) Waste Code
- (iii) Quantity (in tonnes)
- (iv) Code of Activity

(b) Supporting Documentation;

- (i) The management and staffing structure of the facility
- (ii) Any court Conviction under the Waste Management Act
- (iii) Any loads rejected as per condition 5.4 below
- (iv) Reportable incidents during the reporting year
- (v) All complaints received as per condition 3.4 above
- (vi) Copy of the public liability & environmental liability insurance policies as per condition 8.3 & 8.4 below.

3.12 All communications shall quote the Waste Facility Permit number and the name of the Waste Facility Permit holder.

3.13 All records required to be made by these standard rules shall:

- (a) be legible;
- (b) be made as soon as reasonably practicable;
- (c) if amended, be amended in such a way that the original and any subsequent amendments remain legible or are capable of retrieval; and
- (d) be retained, unless otherwise agreed by Wicklow County Council for at least 3 years from the date when the records were made, or in the case of the following records until Waste facility permit surrender:
 - (i) off-site environmental effects; and
 - (ii) matters, which affect the condition of land and groundwater.

3.14 The permit holder shall immediately notify Wicklow County Council by telephone or email of any incident which occurs as a result of the activity that:

- i) Has the potential to contaminate surface or ground water or;
- ii) Poses an environmental threat to air or land or;
- iii) Requires an emergency response by Wicklow County Council or other state agency

REASON - To provide for the notification of incidents, update information on the activity and to provide for the making of records

CONDITION 4 – SITE INFRASTRUCTURE, ACCESS AND OPERATION

- 4.1 Within two weeks of the date of grant of this Permit, the Permit Holder shall erect a Site Notice Board at the entrance to the facility. The minimum dimension of the board shall be 1200mm by 750mm. The board shall clearly show:
- (a) The name, address and telephone number of the Permit Holder.
 - (b) The permit number and date of grant of the permit.
 - (c) The normal opening hours of the facility.
 - (d) The name, address and telephone number of Wicklow County Council.
- 4.2 The Permit Holder shall maintain a secure gate and fence around the site perimeter. The gate shall be kept locked when there is no site supervisor present at the facility.
- 4.3 Oil and Hazardous storage tanks should be adequately bunded. The bund shall have the capacity to hold at least 110% of the capacity of the largest tank contained within the bunded area or 25% of the capacity of the combined volume of all tanks within the bunded area.
- 4.4 The bunded area shall be protected to ensure the non-entry of rain water.
- 4.5 The liquids removed from the bunded area shall be treated as hazardous waste and shall only be disposed of at a suitably permitted/ licensed facility. Records of this disposal shall be maintained on site.
- 4.6 The entire permitted area shall be covered by an impermeable layer of concrete to a minimum depth of 150 mm and a minimum strength of 40N. This concrete surface covering shall be constructed in such a manner so as that all surface run-off generated from the permitted area be channelled and directed into the attenuation tanks detailed in condition 4.7 below.
- 4.7 The permit holder shall install and maintain a silt trap and oil interceptor at the facility to ensure that all surface water discharging from all impermeable areas on the site, where vehicles are stored prior to de-pollution, where vehicles are being de-polluted and where components are being stored which retain traces of contaminants, pass through a silt trap and oil interceptor prior to discharge. The silt trap and separator shall be in accordance with I.S. EN 858-2:2003 (separator systems for light liquids). **NOTE:** "Class I full retention separator" shall apply where discharges are made to surface water; "Class II full retention separator" shall apply to discharges to foul sewer.

- 4.8 The permit holder shall provide an inspection chamber with a sump after the final interceptor and before the discharge point. The sump shall be of a minimum size of 500mm square and 400mm deep. The permit holder shall ensure that the sump shall be installed and operated to the satisfaction of Wicklow County Council. This chamber shall be labelled.
- 4.9 On site oil containment interceptors shall be serviced regularly. Only authorised collectors and treatment facilities shall be used to dispose the contents of the interceptors. Collection dockets for the removal of waste from the interceptors shall be maintained on site.
- 4.10 Independent Commissioning certification confirming that the silt trap(s) and oil separator(s) have been installed in accordance with the manufacturers' requirements and in full working order, shall be made available by the permit holder to Wicklow County Council within three months from the date of issue of this permit unless otherwise agreed in writing with Wicklow County Council.
- 4.11 The permit holder shall provide spill kits including oil absorbent material, and maintain these on site in order to contain any such spillages.
- 4.12 The permit holder shall ensure that all batteries, oil filters and PCB/PCT containing condensers are stored in appropriate containers on impervious bunded storage areas.
- 4.13 All hazardous fluids including fuel, motor oil, transmission oil, gearbox oil, hydraulic oil, cooling liquids, anti-freeze, brake fluids, air conditioning system fluids shall be segregated and stored in bunded containers on an impervious concrete base.
- 4.14 There shall be no casual public access to the facility, beyond the site office unless accompanied by a member of staff.
- 4.15 Effective and adequate site roads and surfacing shall be provided and maintained to ensure the safe and nuisance free movement of vehicles within the facility.
- 4.16 The permit holder shall provide and maintain an office at the facility. The office shall be constructed and maintained in a manner suitable for the processing and storage of documentation.
- 4.17 The permit holder shall provide and maintain a working telephone and a method for electronic transfer of information at the facility.
- 4.18 The permit holder shall provide and maintain a weighbridge at the facility.

- 4.19 The permit holder shall provide and use adequate lighting during the operation of the facility in hours of darkness.
- 4.20 The area where de-pollution of End-of-Life Vehicles shall be undertaken shall comply with the structural requirements as set out in Schedule II of The Waste Management (End-of-life Vehicles) Regulations, 2006 as amended.

REASON - To provide for the protection of the environment.

5.0 Waste Acceptance

- 5.1 In the interest of environmental protection only wastes listed in Appendix A shall be accepted at this facility
- 5.2 Waste arriving at the facility shall be subject to inspection, weighed, documented and directed to the appropriate area. Each load of waste arriving at the appropriate area on site shall be further inspected upon tipping, only after such inspections shall the waste be processed for disposal or recovery.
- 5.3 Any waste deemed unsuitable for processing at the facility and/or in contravention of this permit shall be immediately separated and removed from the facility at the earliest possible time. Such waste shall be disposed of (or recovered) at an alternative facility with an appropriate waste permit or waste licence.
- 5.4 The maximum annual quantity of waste to be delivered to the site shall not exceed **30,000 tonnes**.
- 5.5 All waste sent off-site for recovery, recycling, or disposal shall be transported only by an appropriately authorised waste collector in accordance with the Waste Management (Collection Permit) Regulations 2007, (S.I. 820 of 2007) to an appropriately authorised facility.
- 5.6 The permit holder shall ensure where **hazardous** waste is sent off site that the movement is fully compliant with the requirements of the European Communities (Shipments of Hazardous Waste Exclusively within Ireland) Regulations 2011 (S.I. No. 324 of 2011).
- 5.7 The Permit Holder shall require the production of the following information to ensure full traceability of any waste in accordance with Waste

Management (Facility Permit and Registration) (Amendment) Regulations 2014 (S.I. No. 320 of 2014):

- a) The production of proof of identity of the person supplying the material, such proof being:
 - (i) A valid passport, or
 - (ii) A current Irish driving licence, or learner driver permit, or,
 - (iii) A Public Services Card issued by the Department of Social Protection.
- b) The production of proof of current address of the person supplying the material, such proof being:
 - (i) A current utility bill addressed to that person at that stated address;
 - (ii) A document issued by the Government Department addressed to that person at their stated address within the previous three months;
 - (iii) A current car or home insurance policy addressed to that person at their stated address; or
 - (iv) A current Tax Credit Certificate or Tax Clearance Certificate issued by the Office of the Revenue Commissioners to that person at their stated address;
 - (v) A description and weight of the materials, time and date of sale, and amount paid which shall be recorded;
- c) A signed statement by the person supplying the material that they are the lawful owner of the material or have the consent of the lawful owner to sell the material.

5.7 End of Life Vehicles

- (a) Incoming end-of-life vehicles are stored on an impervious base with provisions of spillage collection facilities prior to and during the de-pollution process.
- (b) All fluids (fuel, motor oil, transmission oil, gearbox oil, hydraulic oil cooling liquids, anti-freeze, brake fluids, air conditioning system fluids) and any other fluid contained in end-of-life vehicles are drained, unless they are necessary for the reuse of parts concerned, before dismantling commences, and that these fluids are temporarily stored on site in appropriate containers or immediately removed by an authorised Waste Collection Permit holder in an environmentally sound manner.
- (c) Lead acid batteries are removed from incoming end-of-life vehicles and that these batteries are temporarily stored on site in appropriate containers in an environmentally sound manner pending reuse or removal off-site by an authorised Waste Collection Permit holder.

- (d) Used tyres are stored in a manner that does not constitute a fire hazard and that excessive stockpiling is avoided, pending removal off-site by an authorised Waste Collection Permit holder.
- (e) All air conditioning systems, catalysts and other hazardous components and materials are removed from incoming vehicles and are stored on-site in appropriate containers in an environmentally sound manner pending removal off-site by an authorised Waste collection Permit holder.
- (f) All air bags should be removed (if possible) from incoming end-of-life vehicles and stored on-site in appropriate containers in an environmentally sound manner.
- (g) When dismantling an end-of-life vehicle or removing fluids from a component of an end-of-life vehicle, the permit holder shall have regard to the dismantling information made available by the producer of that vehicle under Article 31 of S.I. No. 282 of 2006.

5.8 The reception, storage and recovery of End-of Life Vehicles must at all times be in accordance with the standards listed in S.I. 281/ 2014 Europe Union (End of Life Vehicle) Regulations 2014 as amended.

multimetals
recycling ltd.

REASON - To provide for the control of incoming and outgoing waste

CONDITION 6 – ENVIRONMENTAL CONTROL

- 6.1 Surface Water discharged from the site shall be free from petrol, diesel, waste oils and hazardous ELV fluids.
- 6.2 The permit holder shall take adequate precautions to prevent undue odours, fumes, dust, mud, grit, untidiness and other nuisances during the course of the work that would result in a significant impairment of, or a significant interference with amenities, or the environment beyond the facility boundary. If unacceptable levels occur, the permit holder shall abide by Wicklow County Council abatement requirements, which may include immediate cessation of operations

- 6.3 The permit holder shall inspect the site perimeter twice weekly or as required for the presence of litter and shall remove all litter from the site and its environs without delay. A record shall be maintained of inspections and any action taken as a result of these inspections.
- 6.4 Vermin: The permit holder shall maintain sufficient and continuous vermin controls (birds, flies and rodents) at the site. This shall be undertaken by a suitably qualified organisation and records of same shall be maintained on site and shall be submitted as part of the annual report for this permit.
- 6.5 Unless otherwise agreed with Wicklow County Council. The permit holder shall carry out at his/her expense, such further investigations and monitoring of the facility as required by Wicklow County Council.
- 6.6 The Waste facility permit holder shall take adequate precautions to prevent undue noise, fumes, dust, mud, grit, untidiness and other nuisances during the course of the work that would result in a significant impairment of, or a significant interference with amenities or the environment beyond the site boundary. If unacceptable levels occur, the Waste facility permit holder shall abide by Wicklow County Council abatement requirements, which may include immediate cessation of operations.
- 6.7 If so requested by Wicklow County Council, the permit holder shall, at his own expense, carry out investigations and monitoring of the facility as required by Wicklow County Council. The scope, detail and programme, including report structure and reporting schedule, for any such investigations and monitoring shall be in accordance with any written instructions issued by Wicklow County Council. In the event of pollution of waters in the vicinity of the site, or of a leachate discharge onto adjoining lands, input of waste onto the site shall cease, and remedial measures shall be carried out immediately as directed by Wicklow County Council.

Reason - To control emissions from the site and provide for protection of the environment.

CONDITION 7 – ACCIDENT PREVENTION AND EMERGENCY RESPONSE

- 7.1 The Waste facility permit holder shall ensure that an Emergency Response Procedure is in place within one month of the date of issuing this permit which shall address any emergency situation that may originate on-site. This procedure shall include provision for minimising the effects of any emergency on the environment.
- 7.2 Adequate fire extinguishers and emergency response equipment shall be maintained at the facility following consultation with the Fire Service Department. A fire at the facility shall be treated, as an emergency and immediate action shall be taken to extinguish it and notify the appropriate authorities.
- 7.3 The permit holder shall arrange, within three months of the date of grant of this permit **and every three years thereafter** or as directed by the Council, for the completion of a fire risk assessment for the facility. The assessment shall examine all relevant factors on site that impinge on fire risk and prevention. The assessment shall have regard to the EPA Guidance Note: Fire Safety at Non-Hazardous Waste Transfer Stations, 2013. A report on the fire risk assessment shall be prepared **within six months** of the date of grant of this permit. Any recommendations in the fire risk assessment shall be implemented by the permit holder. The results of the assessment shall be submitted as part of the annual report.
- 7.4 In the event of any spillage of chemicals or hydrocarbon based products on site, the facility manager on site shall immediately,
- Isolate the source of the contamination
 - Designate one or more persons to assist with the clean up using suitable equipment
 - The spillage shall be confined to the local area using appropriate absorbent material
 - Ingress to drains shall be prevented by sealing off drains with an impervious membrane or other suitable device
 - Implement appropriate remedial action to prevent a reoccurrence of the incident
 - Inform Wicklow county Council in writing of any remedial action

REASON- To minimise any effect on the environment in the event of an accident or emergency.

CONDITION 8 – FINANCIAL PROVISION

- 8.1 The Waste Facility Permit Holder shall pay an annual contribution of **€500** to Wicklow County Council towards the costs of inspecting, monitoring or otherwise performing any functions in relation to the Waste Facility Permit activity. The payment is to be made within one month of the date of granting this permit and annually thereafter.
- 8.2 In the event that the frequency or extent of monitoring or other functions carried out by Wicklow County Council needs to be increased for whatever reason, the permit holder should contribute such sums as are determined by Wicklow County Council as to defray these costs.
- 8.3 The permit holder shall effect and maintain a policy of insurance insuring him/her/it as respects any liability on his/her/its part to pay any damages or costs on account of injury to persons or property arising from the activities concerned or for remedial actions following anticipated events (including closure) or accidents/incidents, as may be associated with the carrying on of the activity.
- 8.4 The permit holder shall obtain and maintain public liability & environmental insurance in their name for the operation of the waste facility. The permit holder shall maintain Public Liability Insurance cover to include for sudden/unforeseen pollution for a value of €6.5 million. A copy of the insurance certificate shall be furnished to Wicklow County Council within two months of the date of grant of this permit, thereafter evidence of cover shall be submitted with the Annual Environmental Report. *The permit will be automatically revoked if any part of the insurance is either removed or not renewed.*
- 8.5 The permit holder shall ensure that all insurance policies relating to this facility indemnify Wicklow County Council. The permit will be automatically revoked if any part of the insurance is either removed or not renewed.

REASON - To offset the costs of administering the Waste Facility Permit and monitoring the activity as the local authority considers necessary for the performance of its functions under the Waste Management (Facility Permit and Registration) Regulations 2007 (as amended).

CONDITION 9 – RESTORATION AND AFTERCARE

- 9.1 Following termination, or planned cessation for a period greater than six months, of use or involvement of all or part of the site in the authorised activity, the permit holder shall, to the satisfaction of Wicklow County Council, decommission, render safe or remove for disposal/ recovery any buildings, plant or equipment, or any waste, materials or substances or other matter contained therein or thereon, that may result in environmental pollution. The permit holder shall carry out such tests, investigation or submit certification as requested by Wicklow County Council to confirm that there is no risk to the environment.

REASON - To provide for the restoration of the site.
